LENNY TROLLS TELEMARKETERS

Lenny Troll is the **Smart Answering Machine**.

LENNY - The **TELEMARKETING** Troll - is a **CHATBOT** which answers your home telephone and plays pre-recorded messages interacting with **CALLER-ID** spammers while recording the call for your pleasure and to easily share with the larger **LENNY COMMUNITY**.

Just in the US alone there were more than 4 billion **TELEMARKETING** calls last month. About 75% of generic **FRAUD-RELATED** crimes cite the telephone as the initial contact method. These calls mostly are **ROBOCALLS** playing pre-recorded messages or maybe a real person in a **CALL CENTER** anywhere in the world.

Lenny Troll runs best on **THE RASPBERRY PI** with a **USROBOTICS USR5637**

LENNY TROLL REALLY WORKS!

I used to get lots of calls at 8am, days go by without them now.
